

ORBIT PUMPS & SYSTEMS PVT. LTD.

**“Success through
Customer Satisfaction”**

About us

Orbit Pumps & Systems Pvt. Ltd. offers a wide range of pumping solutions for various industrial needs, including :

- ◇ Chemical processing ◇
- ◇ Water transfer ◇
- ◇ Wastewater treatment ◇

Notable Clients

Trusted Partnerships & Industry Insights

"Trust our pumps to keep your business flowing."

"The Satisfactorily Performance of **SS-316, PVDF and UHMW-PE Centrifugal Pumps** Procured from Orbit Pumps for our Patalganga Unit for more than fourteen years."

- **RELIANCE INDUSTRIES LTD.**

"We operate 250 pumps across various applications and materials, all **running smoothly for the past 5 years**, with excellent after-sales service."

- **IPCA LABORATORIES LTD.**

"Their pumps in **PTFE, PVDF, CD4MCU, and SS-316** have operated continuously in our AMLAI plant without interruption for 5 years."

- **CK BIRLA GROUP**  **CK BIRLA GROUP**

"We operate **around 1,555 pumps across 14 units**, including Tarapur, Sarigam, and Sayakha. These include horizontal, AODD, and submersible pumps in various materials from Orbit Pumps, all running smoothly for 12 years."

- **AARTI DRUGS LTD.**

Industries We Serve

- Pharmaceuticals
- Chemicals
- Metal and Pickling
- Petrochemicals
- Oil & Gas
- Mining
- Fertilizers
- Food
- Textile

Horizontal Metallic Centrifugal Pumps

MOC : CI, CS, SS304, SS316, A20, H-B, H-C, etc.

Investment Casting Pumps

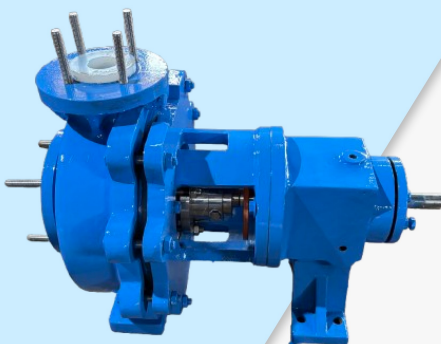

Horizontal Non-Metallic Centrifugal Pumps

MOC : PP, UHMW-PE, GRP, PVDF, etc.

Chemical Process Pumps

Horizontal Non-Metallic Lined Centrifugal Pumps

MOC : PVDF, Teflon – PFA, FEP, PTFE, etc.

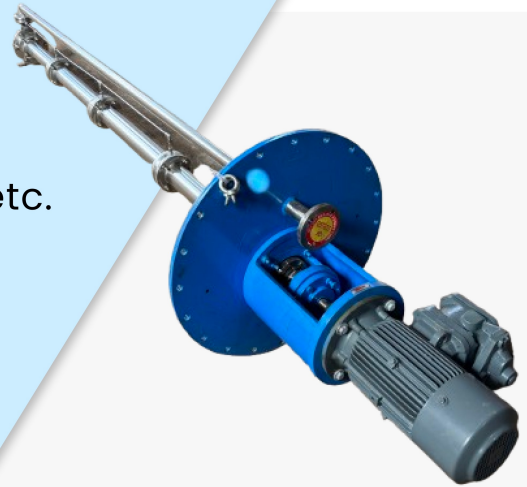

Solid Moulded Casing Liner, Impeller and Backplate Pumps

Vertical Submersible Metallic Pumps

MOC : CI, CS, SS304, SS316, A20, H-B, H-C, etc.

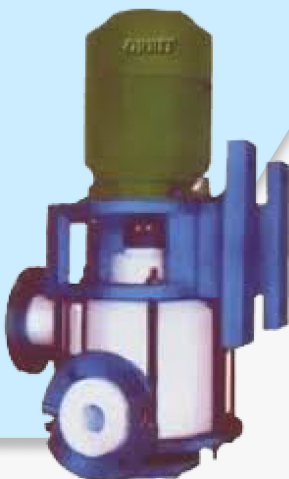

Tailor made pumps for tanks and underground pits.

Vertical Submersible Non-Metallic Pumps

MOC : PP, UHMW-PE, PVDF, Teflon, etc.

Tailor made pumps for smaller depths, lining option available for greater depths.

Vertical Glandless Pumps

MOC : PP, UHMW-PE, PVDF, etc.

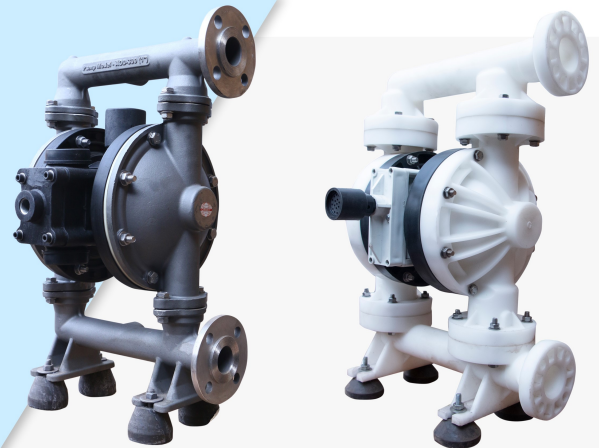

Used for efficient handling of Effluents for ETP.

Air Operated Double Diaphragm Pumps

MOC : SS304, SS316, PP, PVDF, Teflon, etc.

Pumps for Drums and Barrels Loading and Unloading.

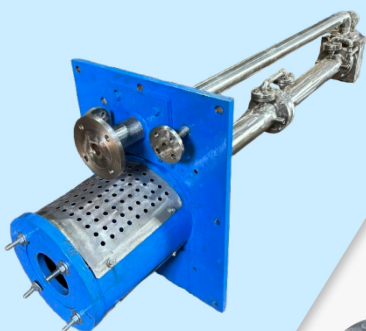

Horizontal Centrifugal Utility Pumps

MOC : CI, CS, SS304, SS316, etc.

End Suction Pumps with Closed Impeller

Horizontal/Vertical Metallic Jacketed Pumps

MOC : CI, CS, SS304, SS316, A-20, H-B, H-C, etc.

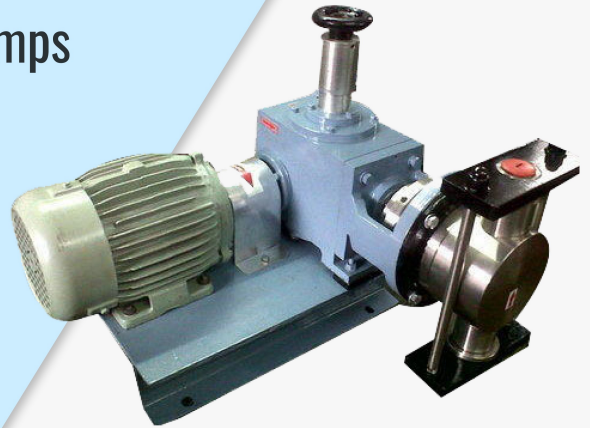

Your pumping partner for liquid that crystallizes at room temperatures.

Positive Displacement Metering Dosing Pumps

MOC : CS, SS304, SS316, A20, H-C, PP, PVDF, Teflon, etc.

Available in both Plunger and Diaphragm Type.

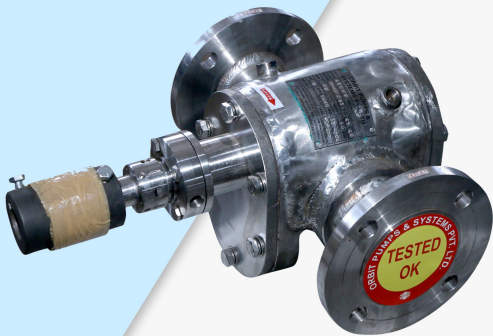

Self Priming Non-Clog Type Mud Pumps

MOC : CI, CS, SS304, SS316, etc.

Pump that works best with sludge applications and suspended particles.

Gear Pumps & Jacketed Gear Pumps

MOC : CI, CS, SS304, SS316, etc.

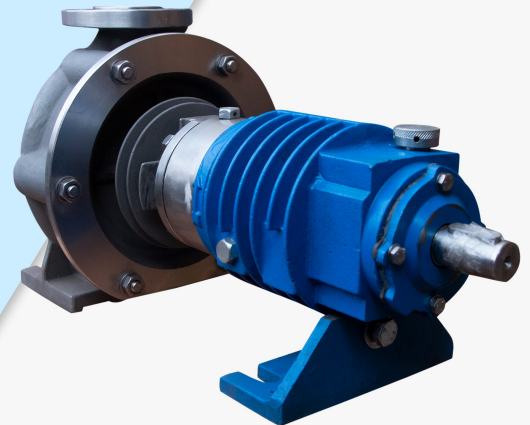

Pumps its way through viscous liquid.

Thermic Fluid Pumps

MOC : CS, SS304, SS316, A-20, H-B, H-C, etc.

Pump that is ideal for high temperature fluids.

Vertical Inline Self-Priming Centripetal Pumps

MOC : SS304, SS316, CS, etc.

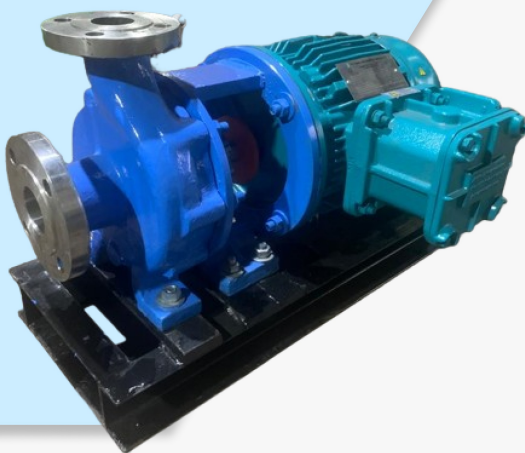

Pump for wastewater
management and firefighting
systems.

Horizontal Centrifugal Monoblock Pumps

MOC : PP, UHMW-PE, SS316, SS304, SS316L, etc.

Compact centrifugal pumps with lower
maintenance and operational costs.

OUR CLIENTELE

CERTIFICATES

ISO 9001:2015 Certified

MSME Udhayam Certified

GEM Certified OEM

OUR MANUFACTURING FACILITY

Notable Aspects

Our **In-house Moulding** Facility :

Precision-crafted with in-house moulding excellence – delivering reliable, high-quality pumps tailored to your needs.

Our **In-house Testing** Facility :

Ensuring quality with rigorous in-house testing, approved by number of TPI agencies for trusted performance and reliability.
